

Ayush Kumar

Software Developer || Data Analyst || Machine Learning Engineer

I'm a recent B.Sc. (Hons.) Computer Science graduate from Dyal Singh College, Delhi University, with strong programming skills in C++, JavaScript, Python, Machine Learning and Data Science and have scored 8.8 CGPA. Currently, I'm seeking internships or job opportunities to apply my skills and contribute to meaningful projects.

EDUCATION

B.Sc Hons. Computer Science

Dyal Singh College, Delhi University

11/2020 - 07/2023

Delhi, India

Courses

- Data Structures and Algorithms
- Computer Network
- Database Management System
- Operating Systems
- Machine Learning
- OOPs

WORK EXPERIENCE

Freelancer (DTP, QA Expert, Annotator,), Physics Wallah,

06/2022 - 08/2023

Achievements/Tasks

- Connection with last organization and latex knowledge helped me to be a part of this,
- Obtained different profiles for the organization, and helped it in achieving its target regularly;
- Contributed as DTP, QA Expert, Annotator, and many more profiles for the organization at different times;

Typist, Reviewer, Digipplus,

05/2021 - 07/2021

Achievements/Tasks

- I started my internship in Digipplus and was not expecting that I would do this great;
- I was advanced to a new title in just one month, thanks to the organization which offered me such opportunities;
- Worked as a typist and reviewer for this organization;
- I learned time management, workload handling, and deep knowledge of Latex code editor;

SKILLS

PROJECTS

Portfolio - Ayush Kumar (08/2023 - 08/2023) [🔗](#)

- HTML, CSS, JavaScript, Scss, Ejs, Express Js, Node Js,
- Showcased projects, achievements, skills, trainings and experience,
- Link to my portfolio: <https://ayush-kumar-portfolio.vercel.app/>,

DSA Tracker (08/2023 - 09/2023) [🔗](#)

- Tech Stack -> Html, SASS, CSS, JavaScript, Express Js, Node Js, MongoDB, Mongoose, EJS;
- DSA Cracker helps you build your confidence in solving any coding-related question and helps you prepare for your placements;
- It is your web-based progress tracker based on the Dsa Cracker Sheet by Love Babbar,

Handwritten Digits Image Recognition - ML PROJECT (07/2023 - 07/2023) [🔗](#)

- Aimed to build a machine-learning model that accurately recognizes handwritten digits (0-9) from digital images,
- Evaluated the model's performance using metrics like accuracy, precision, recall, and F1-score to ensure reliable digit recognition,
- Demonstrated the expertise in data preprocessing, machine learning algorithms, and practical image recognition implementation,

Weahter-App (06/2023 - 07/2023) [🔗](#)

- Used HTML, CSS, JavaScript, API, Rapid Api,
- Obtain the weather details on search of any location,
- Link to the given web-app <https://ayush-3012.github.io/weather-info/>,

Weather Prediction - ML Project (03/2023 - 04/2023) [🔗](#)

- Implemented Exploratory Data Analysis (EDA) and Pre-processing to understand the data,
- Classification using k-fold cross-validation for different classifiers,
- Comparison with respect to average accuracies and confusion matrices,
